Objective

Pharm-D candidate passionate about combining healthcare expertise and business acumen to improve hospital pharmacy operations and patient outcomes. Seeking opportunities to contribute to advanced post-graduate programs and make a meaningful impact in healthcare delivery.

Education

Umm Al-Qura University (UQU) - Pharmacy College

Pharm-D Program (2019 - Expected Graduation: 2025)

GPA: 3.08

Certifications

- Negotiation and Persuasion Certificate (2024) - Escuela Universitaria de Hoteleria y Turismo de Sant Pol
- MERS-CoV & COVID-19 Infection Prevention Certification (2024-2030) - King Saud Medical City (KSMC)

Professional Experience

Pharmacy Intern – Makkah Health Cluster

(August 2024 – February 2025)

- Inpatient Rotation: Managed drug problems and reduced dispensing errors.
- Outpatient Rotation: Dispensed medications and counseled patients on usage.
- Clinical PICU Rotation: Conducted medication therapy management and ensured accuracy between medication sheets and system records.
- Drug Information Center Rotation: Finished medication use evaluation on vancomycin for neonate in 2022.
- Narcotic Rotation.

Medication Safety Trainee – Makkah Health Cluster

(March 2025)

- Participated in assessing and reporting medication errors and implementing safety strategies to minimize patient risk.
- Assisted in developing educational materials and presentations to promote safe medication practices.

Pharmacy Intern – Bayer

(April – May 2025)

- Rotated through Marketing, Sales, and Medical Affairs departments including MSL (Medical Science Liaison).
- Gained exposure to product positioning, promotional strategies, and communication with healthcare professionals.
- Collaborated with the field force to understand sales operations and patient-centric outreach.
- Supported the medical affairs team in scientific material review and clinical engagement.
